Agent Remarks

I hope everyone is finding the time to enjoy the weather this week. Between the crops going up, and the fall calves hitting the ground, I can't imagine it feeling more like fall than it does today. You will notice as you thumb through this, there is a ton coming up. Between all of the local, regional, and statewide events, you could fill your calendars with things to do. I hope you will take advantage of something that interests you. Another short reminder about the ag funding meeting on Thursday, sign up! For those of you with livestock, take care to read through the notice from FSA on Pg. 9 regarding drought recovery assistance. The dry weather stretches that we had this year certainly led to some difficult grazing and hay feeding decisions, hopefully there is some help to be had. As we transition out of the most productive season and into the cooler part of the year, I am on the lookout for any programing needs that are out there. The fall is already quite busy, but those early spring months have room for plenty. If there is something that you'd like to see done, please don't hesitate to reach out. I appreciate everyone's support over the last several months and look forward to finding more ways to help. If you have any questions about any of the programs, or anything else that I can help with, just give me a call.

Thanks!

ANDERSON COUNTY HIGH SCHOOL CAFETERIA

Thursday, October 10 5:30-8:00PM

5:30 Welcome

5:45 Meal

6:10 Presentations

7:00 Booth Discussions

8:00 Adjourn

Grants Available

Representatives from NRCS, FSA, KSA, SCS and more will be there to discuss what grants are available and how to apply

Lending Options

Local ag lenders will all be represented and ready to discuss loan structures, rates, and unique options that might be available.

Food and Fellowship

A meal will be provided for free. There will also be representative from KDA, KCARD and others that will be there to discuss what they offer for business planning and management.

Livestock Producers in Anderson, Franklin and Woodford Counties are Eligible for Drought Recovery Assistance

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) Executive Director CED Jimmy Chambers in Woodford County today announced that FSA is now accepting applications for the Livestock Forage Disaster Program (LFP) for grazing losses due to drought. The deadline to apply for 2024 LFP assistance is January 30th, 2025.

LFP provides compensation to eligible livestock producers who suffered grazing losses for covered livestock due to drought on privately owned or cash leased land or fire on federally managed land. For LFP, qualifying drought intensity levels are determined using the U.S. Drought Monitor. Producers in Anderson, Franklin, and Woodford Counties are eligible to apply for 2024 LFP benefits for grazing losses on native pasture, improved pasture mixed forage, Visit the FSA LFP webpage for a full list of eligible counties and pasture types.

Livestock eligible for LFP include alpacas, beef cattle, bison, buffalo, beefalo, dairy cattle, deer, elk, emus, equine, goats, llamas, ostriches, reindeer, or sheep that have been or would have been grazing the eligible grazing land or pastureland. Recently, FSA updated LFP policy to expand program eligibility to include additional income producing grazing animals, like horses and ostrich, that contribute to the commercial viability of an agricultural operation.

Livestock used for hunting and consumption by the owner, horses and other animals that are used or intended to be used for racing and wagering remain ineligible.

As a reminder, producers who want to participate in many USDA programs including disaster assistance programs like LFP, must file timely acreage reports by filling out the FSA-578 form to remain eligible for program benefits. Livestock producers interested in applying LFP should contact Woodford County FSA at 859-873-3411 Ext. 2 with any questions about the eligibility of specific livestock and forage crops and to schedule an appointment.

More information in USDA disaster assistance is available at farmers.gov/recover.

FROM CAMPUS

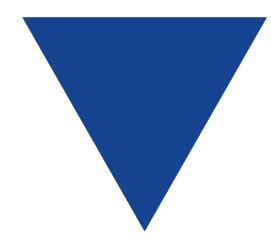

Alternative storage systems could help farmers in times of higher yields

Grain storage helps manage risk by reducing delays, avoiding price drops, and allowing for earlier harvesting. Alternative options are flexible and can be used for short or long periods, depending on the operation's needs. Additionally, they are popular due to cost-effectiveness, accessibility, and adaptability.

These alternatives allow farmers to address specific needs without heavy investments. Here are some popular options:

- Grain Bags: Affordable, temporary storage, but require monitoring for tears and spoilage.
- Flat Storage: Versatile and can hold large amounts, but requires careful management to prevent spoilage.
- Temporary Structures: Quick and scalable, but require additional protection from elements and pests

Source: Sam McNeill, professor of biosysten An Equal Opportunity Organization.

Popular fall vegetables:

Bibb lettuce Leaf lettuce Kale Mustard greens Radishes Spinach

> Snow peas Turnips

Key points to remember:

- Continue growing warm-season crops like corn and beans, and add cool-season crops like cauliflower, cabbage, and carrots.
- Plant taller crops away from shorter ones to avoid shading.
- Water seed furrows before planting and maintain moisture until germination.
- Protect frost-sensitive crops like tomatoes, peppers, and cucumbers with row covers.
- After a killing frost, harvest frost-sensitive vegetables and replant with cool-season crops like lettuce and spinach.

Confetti Chicken Quesadillas

1 small green bell pepper, seeded and diced

1 small red bell pepper, seeded and diced

1 tablespoon hot pepper, minced (optional)

1 pound skinless, boneless chicken breast, diced 1 (1 ounce) packet fajita

seasoning mix

1 tablespoon olive oil

10 (10 inch) wholewheat tortillas

1 (8 ounce) package reduced fat cheddar cheese, shredded

Preheat the broiler and prepare baking sheet with non-stick spray. Toss the diced chicken with the fajita seasoning and place on the baking sheet. Spread chopped peppers on baking sheet. Place under the broiler and broil until the chicken pieces are thoroughly cooked and no longer pink in the center, about 10 minutes. Brush skillet with oil and heat to medium. Place one tortilla in skillet. Layer half of tortilla with approximately one-third cup chicken

and pepper mixture. Sprinkle with 3 tablespoons cheddar cheese. Fold over and flip tortilla to crisp other side. Repeat until all quesadillas have been prepared. Cut each guesadilla into wedges and serve with salsa, if desired.

Yield: 10 servings

Nutritional Analysis: 270 calories, 10 q fat, 3 g saturated fat, 40 mg cholesterol, 880 mg sodium, 2 g sugar, 23 g carbohydrate, 2 g fiber, 19 g protein

Buying Kentucky Proud is easy. Look for the label at your grocery store, farmers' market, or roadside stand.

Kentucky Peppers

SEASON: June through the first frost, usually September.

NUTRITION FACTS: Sweet peppers are low in calories, high in vitamin C and a good source of vitamin A. One raw, medium-sized pepper contains about 20 calories. Red peppers are higher in both vitamins C and A than green peppers.

SELECTION: Select peppers that are heavy for their size, with bright, shiny skins. Avoid flabby, wrinkled or soft peppers.

STORAGE: Store in the refrigerator for 3 to 5 days. Place them in the vegetable crisper or in plastic

PREPARATION: To prepare peppers, wash carefully without bruising.

Source: www.fruitsandveggiesmatter.gov

Peppers can be served raw, grilled, stuffed or roasted. Add them to salads, casseroles or Chinese and Mexican dishes.

PRESERVING: Wash, stem and seed peppers. Package, leaving no head space. Seal and freeze.
